Rutgers University–New Brunswick

WHETHER IT'S A QUESTION FOR OUR TIMES—DISEASE PREVENTION, NEXT-GEN INTERNET, CLEAN ENERGY—OR A QUESTION FOR THE AGES—THE ORIGINS OF THE UNIVERSE, THE PHILOSOPHY OF ETHICS—RESEARCHERS AT RUTGERS UNIVERSITY–NEW BRUNSWICK ARE PURSUING ANSWERS AND PUSHING BOUNDARIES. THEIR FINDINGS MAKE WAVES WITHIN THE ACADEMIC COMMUNITY AND HAVE IMPACT DOWN THE BLOCK AND AROUND THE WORLD.

New Materials for Renewable Energy

Jing Li (right) and her research team, with a laboratory in the new Chemistry and Chemical Biology building, focus on the development of advanced materials that show promise for developing clean and renewable energy applications in such areas as photovoltaics, solid-state lighting, thermoelectrics, gas storage, and chemical sensing.

\$706.3 million

That's how much Rutgers–New Brunswick and the aligned Rutgers Biomedical and Health Sciences devoted to research and development in FY 2018, placing it 19th among public national universities —National Science Foundation

Leader in Food Innovation

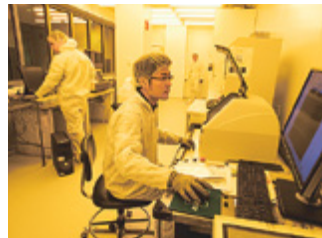

The Impossible Burger—the plant-based burger dubbed #1 by the *New York Times*—was readied for the commercial market at Rutgers' Food Innovation Center.

Rutgers–New Brunswick and Princeton are the only New Jersey schools in the **ASSOCIATION OF AMERICAN UNIVERSITIES**, whose 65 members are North America's leading research universities.

Clean Room for Advanced Fabricating

The School of Engineering's new Micro-Nanofabrication and Characterization Facility is just one of the many high-tech research laboratories at Rutgers–New Brunswick.

Naviator to the Rescue

The Rutgers-developed Naviator drone can seamlessly transition from flying to maneuvering underwater. In a single, quick deployment, the Naviator can aid in water rescues and complete infrastructure safety tests and other tasks that previously required a helicopter, boat, and underwater equipment. Rutgers start-up company SubUAS is bringing the Naviator to the military, commercial, and recreational markets.

Life-Changing Research

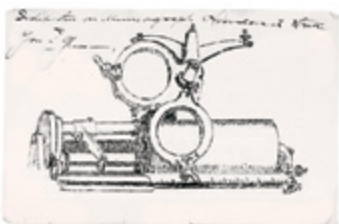

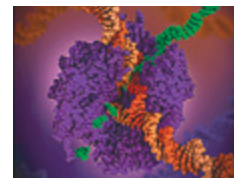

Only at Rutgers–New Brunswick

The **CENTER FOR OCEAN OBSERVING LEADERSHIP** launched its 500th sensor-laden robotic undersea glider in 2019. The internationally renowned center collects ocean data to shed light on hurricanes, climate change, commercial fishing, and more.

The nation's go-to resource for insight on women in the political sphere, the Eagleton Institute's **CENTER FOR AMERICAN WOMEN AND POLITICS** appears in the national media on a weekly basis.

The **RCSB PROTEIN DATA BANK**—the world's only open-access, digital archive of 3D biomolecular structures—is accessed by researchers across the globe as they pursue drug discovery and biological and medical research.

The National Endowment for the Humanities and others fund the Rutgers-led **THOMAS A. EDISON PAPERS PROJECT**, which makes available to the public thousands of documents from the life and career of Thomas Edison, the prolific New Jersey-based inventor.

Faculty Excellence

ANDREW CARNEGIE FELLOW, PAMELA McELWEE: Environmental expert is a lead author of the 2019 United Nations global assessment on biodiversity.

PRESIDENTIAL EARLY CAREER AWARD FOR SCIENTISTS AND ENGINEERS, SAMAN ZONOZ: Expert in protecting critical U.S. infrastructure from cyber-attack earns the nation's highest government honor supporting outstanding early career researchers.

ROBERT KOCH GOLD MEDAL, MARTIN J. BLASER: World expert on the human microbiome received the award for his life's work on the detriments and advantages of microscopic organisms—primarily bacteria—that live on and in the human body.

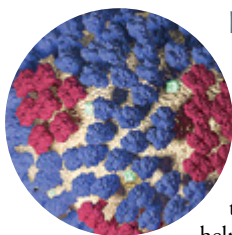

39

Faculty in the National Academies of Sciences, Engineering, and Medicine

Physicist Gabriel Kotliar and biochemist and molecular biologist Masayori Inouye are the newest members elected to the **NATIONAL ACADEMY OF SCIENCES**, one of the nation's highest scientific honors.

20 million

That's how many biospecimens are stored at RUCDR Infinite Biologics, the world's largest university-based cell and DNA biobank for genetic research on mental health and developmental disorders; drug and alcohol abuse; diabetes; and digestive, liver, and kidney diseases

Flu Watch

A Rutgers-led team has developed a tool to monitor influenza A virus mutations in real time, which could help virologists learn how to stop viruses from replicating. Previous technology killed cells, precluding analysis of viral replication as it occurs.

New Jersey's Land-Grant University

Rutgers–New Brunswick is New Jersey's land-grant university and home of the New Jersey Agricultural Experiment Station, which provides research and outreach to individuals, businesses, and communities in all 21 N.J. counties. NJAES research generates over \$5 million in royalties. Its programs cover everything from improving agricultural yields to mosquito control to climate change.

Rutgers Giving Community

MORE THAN 48,500 RUTGERS DONORS GAVE A RECORD-BREAKING \$250.9 MILLION IN 2018–2019, AN INCREASE OF MORE THAN 12 PERCENT OVER THE PREVIOUS YEAR'S DOLLAR AMOUNT, SUPPORTING A BROAD ARRAY OF EFFORTS TO IMPROVE LIVES IN NEW JERSEY AND BEYOND.

Historic Gift

Marlene Brandt ('80) (right) committed \$30 million—among Rutgers' largest gifts ever—to launch the Rutgers Initiative for Youth Behavioral Health and Well-Being, which will provide behavioral health services for young people and families.

\$1.476
billion
endowment

Since 2012, Rutgers' endowment has more than doubled, placing it among the top 75 in the nation.

As of June 30, 2019, the endowment totaled \$1.476 billion.

\$250.9 million

Single year record-breaking fundraising

\$25 Million Anonymous Gift

An anonymous donor gave \$25 million to the Rutgers Cancer Institute of New Jersey to establish the Cancer Immunology and Metabolism Center of Excellence, which will enable the institute to break new ground and develop new therapies that will change the face of cancer treatment forever.

Recent Major Gifts

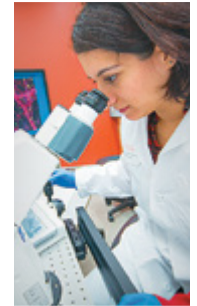

- Prudential Financial gave \$10 million to the Honors Living-Learning Community at Rutgers University–Newark to create the Prudential Scholars Program for Newark residents. It is the largest gift in Rutgers–Newark's history.
- The Andrew W. Mellon Foundation made a \$1.5 million grant to fund City Verses: Elevating Voices Through Jazz and Poetry, a collaboration of Rutgers–Newark and the New Jersey Performing Arts Center.
- Ronald W. ('62) and Patricia Ann Bainton pledged \$1.5 million to fund facility enhancements to the Rutgers Baseball/Softball Complex.
- William ('93,'97) and Lois Dwyer made a bequest intention of \$3 million to the Rutgers School of Management and Labor Relations, the largest gift commitment in the history of the school.
- Barbara ('76) and Gary ('74) Rodkin pledged \$15 million, the largest gift in Rutgers Athletics history, for the Gary and Barbara Rodkin Academic Success Center (pictured).

- Sandy Stewart ('81,'87) made a \$2.5 million bequest intention to create the Sandy J. Stewart Endowed Equipment and Instruments Fund at Rutgers University–Camden, in recognition of Rutgers' transformative role in his life.
- Founded by Gary M. Cohen ('80,'83) and supported by his intent to contribute \$1 million, the Rutgers Institute for Corporate Social Innovation will embed interdisciplinary coursework into the Rutgers Business School curriculum.
